

College of Insurance
Insurance Institute of India, Mumbai
Comprehensive Port Package Policies
Program ID: CPG19
(From: 14th to 15th October, 2019)

Relevance of the Program:-

Oceans and rivers are the most eco-friendly means of transport. Just as ships and their cargos need to be covered by insurance so do the entry and exit points for these ships: Posts and Terminals. Not only is there a huge amount of highly specialised equipment and machinery on the quayside, there is also the risk attached to the ship coming into or leaving the berth along with a number of employee liabilities to consider.

Some of the larger terminal groups with locations all over the world have property portfolio values which run into billions of dollars. As no two operators will face the same range of risks, so the cover must be tailored to individual situations.

With the emphasis on Sagar Mala Projects and the beginning of usage of river waterways as means of goods transport, a large number of small ports will be coming up in India in the near future, leading to a growth of demand for Port Package Policies.

Program Objective:-

- To understand the operational, commercial and environmental risks faced at Port by various stakeholders
- To gain an insight into various Additional Covers /Wordings required for adequate coverage
- To know which are the most appropriate extensions and clauses required.
- How to design a tailor made policy

Participant Profile:-

- Officials handling Port Package in Insurance Companies and various Port Authorities in India and abroad.

College of Insurance
