Classroom Training Session on Project Insurance –
Customer Perspective
Program ID – CPG2
(From: 12th to 13th April, 2023)**

Relevance of Program:-

Major Engineering Projects involve a lot of investment in terms of money, manpower and opportunity costs. Proper risk management and risk transfer are very important aspects for an infrastructure project. Minor instances of unprofessionalism in managing projects can have heavy untoward consequences for a business enterprise. In many cases, despite having insurance policies in place, when an unfortunate event happens, problems are faced by the business entity because the correct insurance policies and add on covers are not bought, impacting proper risk transfer and leaving them not effectively insured.

In this context, the College of Insurance designed this program for developing and updating skills of the buyers of insurance from various industries.

Program Objectives:-

The program is design to empower the participants in the following areas:

- Revisiting basics of project insurance policies such as CAR/ EAR
- Understanding the coverages and terms offered under Project policies
- Understanding the concept of Business Interruption and the need for the same
- Understanding the role of Risk Management other factors in Project Management
- Issues and challenges during claims with case studies
