

**College of Insurance
Insurance Institute of India, Mumbai
Cyber Liability Insurance
Program ID: CPG11
(From: 11th to 12th August, 2020)**

Relevance of the Program:-

Technology is commonly used in today's world for various purposes. Technology has become an important part of one's personal life today as one cannot imagine doing day to day work without using computers or handheld mini computers in the form of mobile phones. But more than Individuals, it has become imperative for businesses to use technology to reach out to their customers and enhance the overall customer experience. Technology enables businesses to interact with vendors, collect market data for forecasting trends, as well as for various financial transactions.

All these new ways of doing business expose business houses to new challenges. As big chunks of business and personal data get collected by companies, understanding the risk exposure brought by it becomes a very important function of risk managers and providers of risk management solutions. In this context, where managing Cyber Risks assumes great importance for businesses, it has become very important for insurers to understand cyber risk exposures and the entailing liabilities.

In this background, the College of Insurance aims to provide insurers with a strong theoretical framework on Cyber Risks and related liabilities to bring in a higher level of professionalism in their work.

Program Objective:-

The program is designed to enable participants to:

- Understand the scope and magnitude of Cyber risk
- Appreciate the exposure of businesses to Cyber risk and consequences thereof
- Appreciate technical and risk management aspects of Cyber Liability
- Understand the challenges in underwriting Cyber Liability insurance
- Procedures and issues which arise during Claims Settlement
- Legal aspects of Cyber Liability

Participant Profile:-

The program is designed for serious minded practitioners in insurance, information technology and related areas. It is also for people working in the marketing and technical departments of insurance and broking companies and in related areas. Hence, participants are expected to have around 2 years' exposure in the insurance industry or in information technology.
