

Virtual Training Session on Insurtech and Digital Agriculture (CVT – I & DA)

1st June 2021

Agriculture is the backbone of the Indian economy and contributes 16.5% of the GVA (Gross Value added). The ecosystem of agriculture in India will be heavily backed by technology like remote sensing, drones, AI, ML, and the IoT. Farmers are using high yielding variety seeds, fertilizers, pesticides, farm mechanizations equipment etc. to bring efficiencies in agriculture production. Many innovative digital technologies are being tried, tested and implemented.

An online portal, E-Nam (National Agriculture Market) has recently been launched by the GOI for trading agriculture commodities and is helping in better price discovery and provide facilities for smooth marketing of their produce.

COI has created '*Virtual Training (CVT) Rooms*' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

Programme Objectives: The sessions would cover the following areas:

- **History of Agriculture**
