

Virtual Training Session on Medical Management and Fraud Control (CVT-MM&FC) 15th – 16th January, 2021

Medical case management is an overall process that facilitates recommended treatment plans to assure that appropriate medical care is provided. It requires the evaluation of a medical condition, developing and implementing a plan of care, coordinating medical resources.

The incidence of health care fraud remains at alarmingly high levels despite unprecedented attention in recent years from policymakers and law enforcement. Major scams appear to be artfully designed to circumvent routine controls and may remain invisible for long periods. When they are discovered, it seems often to be more by luck than judgment. The percentage of health insurance claims that are illegitimately processed—are a serious detriment not only to insurance companies but also to the customer which ultimately pays the price in terms of higher premium. The fraud can be perpetuated in multiple ways.

COI has created '**Virtual Training (CVT) Rooms**' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

Programme Objective:

- Understand the relevance of Medical Management
- Learn about various ways in which it helps in cost control
- Discuss about types of Frauds and how it is perpetuated.
- Learn ways of how medical fraud can be controlled.

Participant Profile: The programme is designed for participants at all levels from the Insurance Companies/ Brokers/TPAs.
