

Virtual Training Session on Impact of Changing Landscape of Health Insurance Regulations (CVT-ICLHIR) – 9th December, 2020

Health Insurance is now undergoing a virtual metamorphosis with COVID -19 being the game changer along with a spate of regulatory changes that have been driving the health insurance landscape.

Health insurance penetration is still low in India and those insured are largely underinsured. Private health insurance companies cover only about 3% of the population. The rest of the insured are covered under one or the other health

insurance scheme of the government. With massive urbanization wave, continuous innovations in offerings will be required to bring more urban population under mediclaim insurance coverage. The customer centric approach has thus necessitated the slew of regulations to bring in clarity and address the long standing issues of exclusions and pre - existing diseases amongst others.

Keeping in view the multitude of regulations this workshop was designed by College of Insurance to help participants understand how the regulations will impact the Health insurance underwriting, risk management and claims.

COI has created '**Virtual Training (CVT) Rooms**' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

Participant Profile: All professionals associated with Insurance Industry, Health care workers from Hospitals, TPA's, Brokers and officials associated with Central and State Government Health schemes.
