

**College of Insurance**  
**Insurance Institute of India, Mumbai**  
**Emerging trends in Motor Insurance Claims**  
**Program ID: CPG23**  
**(From: 04<sup>th</sup> December, 2020)**

---

**Relevance of the Program:-**

With various new regulations being introduced, the Motor Insurance practice is slowly evolving to suit the needs and requirements of the Insurer as well as the Insured. The market is undergoing a sea change in the way it's doing the business and the innovative products it is introducing. How premium is being charged and how claims are being assessed is now decided with the help of smart tools and technology has played a major role in that, right from use of telematics to drones to artificial intelligence and IOT. This sector has always been plagued with frauds of high proportions involving the nexus of various stakeholders. In order to avoid the same one can also engage various simulation models to reconstruct the accident scene in order to understand the causes of accident and ways of avoiding it. This creates better underwriting skills as well. The college of Insurance has organised a one day workshop for understanding how these simulation models effectively help in dealing with Motor claims and reduce frauds.

**Program Objective:-**

- Learn about Vehicle anatomy
- Gain insight into the construction of modern cars
- Get a hands on experience of reconstruction of accident scene with help of various simulation models

**Participant Profile:-**

This programme is for executives working as underwriting/ claims officers in Insurance Companies, brokers /surveyors and investigators as well as executives from Motor manufacturing companies and Motor vehicle dealers.

**Course Coordinator:-**
