

Virtual Training Session on Current Perspective on Engineering Insurance – Underwriting & Claims (CVT-CPEI), Program ID – CPG18 (From: 20th to 21st September, 2022)

Engineering Insurance category has remained as a significant sub-set of P&C Insurance across the globe, and more importantly in India. This segment of insurance has been receiving increasing importance for India has been scaling up in its developments by investing in infrastructure like Roads, Highways, Bridges, Dams, Airports, Flyovers, Tunnel, Underpass, High Rises etc in civil constructions; and also giving thrust on the development of industries in Steel, Aluminum, Cement, Power, Mining, Chemicals, Automobiles, Defence-equipment etc in the core sector. New as well as modernization-projects of high value are launched throughout the year as a part of our economic development process. ATMA NIRBHAR BHARAT strategy of the Govt. of India is further to augment indigenous efforts in setting up more such projects involving high economic value of assets. Risk exposure is inherent with the existing infra-assets and the ongoing/proposed infra and industrial projects. The Insurance Industry has the opportunity as well as the responsibility to cater to the comprehensive risk coverage of all these high value assets and the employees/workmen associated with it besides the liabilities to the Third Parties.

The Engineering Insurance Policies have been evolving to meet the new challenges from time to time. Keeping the growing number of projects/assets, changing requirements and the complexities of these Policies in mind, College of Insurance, Kolkata (Insurance Institute of India) intends to provide updated knowledge with practical orientations to the practitioners/prospective-practitioners in this segment of engineering insurance containing ten separate insurance Policies, in an easily understandable manner. COI has created '*Virtual Training (CVT) Rooms*' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

Program Objectives: The Program is of two days duration. It aims at helping the participants to gain and improve their knowledge with practical orientations on:

- What are the infra and industrial projects and the fitting Policies & Coverage for them
- Risk and Underwriting Considerations for the Project Policies
- New Add-On covers available for the large projects. Important Warranties often ignored.
- Liabilities and Cross Liabilities associated with the Projects and Machineries.
- Annual Policies for the completed projects
- Relevance of Risk Inspections and PML determination
- Claims Handling and Documentations for each type of Policy.
- Points for client- interface

Participant's Profile: The Program is designed for all levels of Executives from Insurance Companies, Brokers, Surveyors and Customers. Each participant shall be awarded with a Certificate on completion of the training.

Duration	Date	Time (IST)	Hours
Two Days	20 th – 21 st September 2022	10.00 hrs. - 5.00 hrs	06.00 Hours / Day

Course Fees: Rs.7080/- (Rs.6000/- + 9% CGST + 9% SGST)

How to enroll: [Click here for Registration](#) and for any help/queries please mail to college_insurance@iii.org.in

Certificate of Participation: Online Certificate in PDF format will be issued to all the participants.

Program Coordinator: Mr Basant Nayak, Principal (Email id: bk.nayak@iii.org.in, Mob.no. +91 8335080196)
