

## Virtual Training Session on Aviation Insurance (CVT-AI) - 27<sup>th</sup> - 28<sup>th</sup> January, 2021

Aviation Industry has undergone sea changes in India and in Asian Countries. It has become one of the most preferred modes of travel for Middle-class to Upper-class people. But COVID 19 pandemic has made huge negative impact on this Industry. Many Air Line's operation have been suspended. Expansion plan is put on hold. International flights are yet to resume to its normalcy. Other than fleets there are many aircrafts under individual ownerships. Their use is minimum considering the economic effects of Pandemic. It is very tough time for Airlines operators worldwide including India. It is neither good time for insurers. Their aviation portfolio has been dented by way of refund of premium due to grounding of good number of aircrafts but with the risks of accumulation due to grounding.

The need of hour is the cooperation amongst all who are involved with Aviation Industry. Moreover, officials who are involved with Insurance process either of Aviation Companies or of Aviation Insurers should have proper understanding about the whole process of Aviation Insurance as method of risk management in this crucial pandemic period. A new field is opening up with the increase use of commercial drones. They also need insurance. Regulator is proactive in this respect and already released exposure draft for Drone Insurance. The course will discuss about the concept and market situation in this respect.

The Programme of **two days duration** aims at to make the participants aware of–

- ♀ Basic knowledge about aircraft
- ♀ Risk involved with Aviation Industry including Drones
