

On-line sessions on Health Insurance Underwriting (CVT - HIU) - 9th - 10th July, 2020

Health Insurance has been one of the most interesting areas of insurance in India during the last twenty years. The Covid-19 situation of recent times has highlighted the need for health insurance. More a billion Indians need health insurance protection. The Central and State Governments, through bodies like the National Health Authority have been trying to cover a large part of the population, especially the economically weaker segments of the population.

Insurers are facing challenges in understanding the changing needs of the consumers, designing products that are affordable, accessible and relevant for customers.

College of Insurance (COI) has designed this program to help insurance professionals in understanding health insurance better and underwrite health policies efficiently.

COI has created '**Virtual Training (CVT) Rooms**' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

The Program of **two days duration** aims to make the participants –

- ✚ Appreciate the environment in which health insurers are operating today
- ✚ Understand government mechanisms to provide health insurance protection
- ✚ Appreciate the challenges in product development and pricing
- ✚ Understand some major diseases and their treatment procedures
- ✚ Appreciate the challenges in underwriting health insurance

Who should attend? CVT-HIU Program is designed for junior executives working in health departments of insurance companies, brokers, third party administrators and those who are interested in health insurance.
