

College of Insurance
Insurance Institute of India, Mumbai
Aviation and Satellite Insurance
Program ID: CPG6
(From: 10th to 12th June, 2019)

Relevance of the Program:-

Aviation insurance policies require knowledge and skills that are distinctly different from other areas of insurance. Insurers need to know certain aviation terminology, limits and clauses specific to aviation insurance. The aviation industry and its insurance market are constantly evolving with new challenges to meet. Satellite insurance is also a specialized branch of aviation insurance with its own sets of risks. Rules of satellite launch technology is governed by International Traffic in Arms Regulation (ITAR). This course seeks to provide an indepth understanding of these rules along with rating structure and underwriting considerations along with an understanding of the main principles and practice of Aviation hull and liability insurance. It also helps explain the development of aviation insurance, its laws and the types of cover available.

Program Objective:-

The program strives to make the participants competent to:

- Analyse the critical components of the different insurance contracts available to aircraft operators
- Understand the necessary processes for granting/obtaining insurance cover
- Identify the factors that an aircraft operator should take into consideration when purchasing insurance cover Comprehending the special features of claim settlement
- Gain an understanding of the main conventions and protocols
- Gain an understanding of how hull and liability risks are insured
