

Virtual Training Session on Finance and Accounts for Non Finance Executives – Life Insurance (CVT-F&A for NFE-LI) 28th – 29th October, 2020

Finance Management, Accounting and Financial Reporting are vital activities for any Insurance Company. It is essential that employees of the organisation at all levels and in all functional areas possess reasonable knowledge about the implications of financial management functions.

This would enhance their capability in evaluating the relative differences in the yields expected on these competitive opportunities and thus improve their effectiveness in their respective area of operation. All the financial transactions happening in the company culminate into the summary of accounts which forms the basis for Financial Reporting. As Reporting statements speak about the financial position of the company and its financial results, employees working in all departments need to understand financial reporting formats like Balance Sheet, Revenue Account and Cash flow statements, etc. The purpose of this programme is to impart an understanding of the current economic environment, a broad overview of the financial market, discuss financial statements, ratio analysis as well as insurance financial reporting.

COI has created '*Virtual Training (CVT) Rooms*' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

The programme is designed to enable participants to:

- Current Economic Environment
- Understanding Financial Markets
- Insurance Financial Reporting
- Financial Statement and Ratio Analysis

Participant Profile: Senior Management and Middle Management executives working in functional areas other than accounts in Insurance Companies. The programme would also act as a much needed refresher for those working in Accounts.
