

## III Webinar on Road Safety and Insurance

17<sup>th</sup> February, 2021 at 11:00 am

### The Concept of the Webinar

Road transport is an integral part of every human activity, personal or commercial. Road transportation ecosystem has offered convenience and bridged the distances, but it has also brought in many risks. Every year road accidents result in loss of lives, serious injuries and damage to vehicles.

Studies reveal that India accounts for thirteen percent of the total road accident fatality all over the world. The condition of vehicles, driving skills, road condition, road construction engineering etc. are some of the factors responsible for road-safety. The Insurance industry is concerned about the increasing number of motor insurance losses. Hence, investing in road safety education assumes importance.

Insurance Institute of India works for insurance capacity building and engages itself in awareness programmes on risk, safety and insurance. The aim is to disseminate road safety information for vehicle owners, drivers and the road users to encourage safer road user behaviour among current and prospective road users and reduce the number of accidents and losses.

The Ministry of Road Transport & Highways observes National Road Safety week every year. This year National Road Safety Month is being observed from 18 January 2021 to 17 February 2021. Insurance Institute of India is happy to participate in this noble act of loss avoidance and risk minimisation through organisation of a webinar on 17 February 2021.

**REGISTER NOW**

**INSURANCE INSTITUTE OF INDIA (III)** formed in 1955 as a Federation of Insurance Institutes, is recognized by the Indian Insurance Industry, SAARC countries and many other developing insurance markets, as a pioneer in insurance education, responding to the academic needs of the industry as well as addressing the causes of building and developing professionalism. Its certifications are internationally recognized.

**COLLEGE OF INSURANCE (COI)** the training arm of III, founded in 1966, provides training in all technical and functional domains of Insurance. A large number of private and public sector insurers, brokers, surveyors, purchasers of insurance and others benefit from COI's classroom sessions, workshops, seminars, industry research and knowledge sharing activities.

**LOOK BEYOND CONCEPT OF SEMINAR/WEBINAR:** This webinar on Road Safety and Insurance falls under the 'Look Beyond' (LB) genre of III seminars/webinars. They are conducted either on a proactive or futuristic themes related to new areas of insurance. They focus on an existing challenge, an emerging situation or an elusive problem.
