

On-line sessions on Cyber Liability Insurance (CVT – CLI) - 21st – 22nd July, 2020

Today everyone is using the technology to do various things. Technology is important part of personal life today as one cannot imagine doing their day to day work without using computers or handheld mini computers in form of Mobile phones. But more than Individuals it is compulsion for the Businesses to use technology to reach out to their vendor, collect various kinds of data which can be later used for processing to find various trends, to serve their customers by various ways including financial transactions on internet to enhance the overall customer experience.

All these new ways of doing business also brings in new challenges to Business houses. As big chunks of Business and personal data is getting collected at companies end, Cyber risk management and understanding the risk exposure brought by it becomes very important function of risk managers as well as risk management solution providers. As risk management partner it's very important for the insurer to understand the cyber risk exposure and entailing liabilities arising out of same.

In this background, the College of Insurance aims to provide insurers with a strong theoretical framework on cyber crime and related Liabilities to bring in a higher level of professionalism in their work. COI has created '**Virtual Training (CVT) Rooms**' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

The program is designed to enable participants to:

- Understand overall scope of Cyber risk
- Appreciate the difference between Cyber risk and Crime policy
- Realign themselves with the technical and risk management aspects of Cyber liability
- Understand the challenges in underwriting the cyber policy
- Procedures and issues which arise during the claim's settlement
- Legal aspects of cyber crime

Who should attend? Practitioners in insurance, information technology and related areas, working in the marketing and technical departments of various insurance and broking companies and in related areas.
