Objectives of the Course

Online CCPI is a Certificate course by **Insurance Institute of India (III)**, the pioneer insurance education institute in India since 1955.

Property Insurance is one of the most technical areas of the General Insurance industry. Understanding the intricacies of Property Risks for underwriting purposes and analysing the complexities of losses for settling claims are most challenging. Errors in these matters can be costly for insurers and insured. III's '**Online Certificate Course on Property Insurance**' is designed to address the knowledge and skill gaps in the industry and build competence.

Online CCPI seeks to improve career opportunities of officials working in the Insurance Industry and make other students better employable in General Insurance Industry and also with other industries work in General Insurance domain.

Details of the course: Introduction, Eligibility Criteria and Structure

Introduction

In India even with the annual premium growth rate of above 9% (2019-20) General Insurance penetration is about 0.9%(2019) of the GDP. The desired level is about 4%. Hence, there is a lot of space for further growth in General Insurance segment.

Average growth rate of the property segment is not impressive.

The reasons are many but absence of sufficient qualified manpower with adequate underwriting knowledge in the field of property Insurance is one of the key contributory factors.

Moreover, complexity in managing property insurance is far greater than that of other lines of business.

Insurance Institute of India (III), a premier Indian insurance education Institute, through its College of Insurance, Kolkata Campus has started "Online Certificate Course on Property Insurance" for three months duration to give insight into the various aspects of Property Insurance particularly in the commercial line to make participants conversant with underwriting and claim management of Property Insurance.
