

**College of Insurance
Insurance Institute of India, Mumbai
Classroom Training Session on Liability Insurance: Focus
Clinical Trial-CT
Program ID – CPG7
(From: 27th to 28th April, 2023)**

Relevance of Program:-

The Clinical Research industry across the globe is going through a transition phase in the post pandemic scenario. Life Science Companies from many parts of the world are turning towards emerging markets like India due to various factors such as availability of large patient pools, lower costs etc. to pursue clinical research.

Though insurers are able to provide the covers required, many times the insurance companies find themselves unequipped to understand the entire process of clinical trials, drug development and the scientific and empirical studies that are part of the pharmaceutical industry.

In this context, the College of Insurance aims to provide a stronger theoretical framework for liabilities connected with clinical trials to Insurers.

Program Objectives :-

The program is design to empower the participants in the following areas:

- Understanding the Clinical trial industry and the Drug development cycle
- Appreciating the Legal aspects of Clinical trial insurance
- Understanding the Clinical trial insurance coverages, exclusions and other nuances
- Understanding the Liability exposures in Clinical trial policies
- Appreciating the main challenges in claims servicing

Participant's Profile:-

The Program is designed for serious minded practitioners who have interest in Liability Insurance. People working in various Insurance and Broking companies and those in the clinical trial industry can also benefit with this program.
