**Relevance of the Program:-**

Insurance has been growing over the last few centuries hand in hand with manufacturing and trade. Manufacturing of different commodities and all the related processes deal with huge assets, machineries and stock. Physical damage to these would be often too costly for the manufacturer to bear. Sustaining businesses by way of insurance protection has been the strategy adopted by multiple governments and industries in their attempts to preserve the wealth of the nation. Fire insurance covers losses and damages that can arise from a wide range of unforeseen accidents, natural calamities, errors or even malice.

As Fire insurances are used to protect diverse industries and a wide range of probabilities, challenges in understanding the risks from an insurance point of view, underwriting the risk and settling claims when they occur are considered highly specialized and challenging by Insurers.

**Program Objective:-**

The program is intended to firm up the basics of fire insurance professionals, make them comfortable in underwriting diverse risks and appreciating the concerns in settling claims. The program is design to empower the participants in the following areas:

- Understanding and analyzing risk in multiple industries
- Learning the nuances of underwriting property risks of diverse types
- Appreciating the importance of charging risk commensurate rates
- Appreciating the challenges in evaluating losses and paying claims in a fair and professional manner
- Concept of Business Interruption related to fire insurance line of business will be discussed
