**Relevance of the Program:-**

The insurance and reinsurance markets around the globe are becoming increasingly exposed to the devastating effects of natural catastrophes like earthquakes, tsunamis, floods etc. The impact of man-made disasters has also badly affected the industry in recent times. These changes have made it imperative for insurance executives to acquire advanced skills and update themselves with the emerging trends and practices relating to reinsurance business to maintain their relevance in the present day.

In addition to traditional practices of managing reinsurance, insurance executives need to know about controlling accumulations, financial security, Alternative Risk Transfer mechanisms and other issues critical to handling reinsurance business, including the use of information technology for appropriate reinsurance decisions.

Recognizing this knowledge and skill gap of executives of insurance companies of developing global markets, GIC Re and the College of Insurance offer this International Program on Reinsurance Management as an exclusive 6 day package for international participants to empower them to take reinsurance decisions professionally.

**Program Objective:-**

- To update the participants' concepts and understanding of all aspects surrounding the management of reinsurance portfolio in an insurance company,
- To understand the special characteristics of international reinsurance markets and Pools,
- To familiarize participants with all essentials needed in fixing retentions,
- To enhance skills to design a Reinsurance Program,
- To develop skills for effective placement and distribution of reinsurance,
- To monitor/ control accumulations and Nat Cat exposures,
- To appreciate use of statistical analysis quantitative techniques in reinsurance,
- To enlighten participants on Legal aspects, Clauses, Wordings and Documentation for reinsurance,
- To familiarize participants on the significance of PML concepts in reinsurance,
- To understand Reinsurance aspects of specialized classes of business like Aviation, Satellite and large Property, Engineering and Liability risks,
- To appreciate ART Mechanisms in insurance risk management
- To appreciate issues surrounding Inward Reinsurance,
- To appreciate the importance of Reinsurance Accounting – methods and procedures,
- Knowledge sharing through interactive sessions.

**Program Focus:-**

The Program is specially designed for insurance executives in the middle management level from reinsurance departments, underwriting and claims departments, engineers, brokers as also information technology experts, whose roles and contributions would require developing specific knowledge and skills on all aspects related to the reinsurance business, processes and critical issues in reinsurance management of specialized classes like aviation, satellite, as also catastrophic exposures.
