On-line sessions on Impact of Pandemic on Special Purpose Insurance Policies (CVT – IPSP) - 10th – 11th August, 2020

On all fronts, the rapid spread of COVID-19 is being compared to a battle. Times are tough and will require unique solutions to the challenges.

In the wake of the global pandemic, cinemas have closed, release dates have been postponed, film festivals have been cancelled and production has come to a halt. Experts estimate the entertainment industry has already lost more than a thousand crores because of the lockdown. This is the first time in

our history that the entire India box office is zero.

Today, the world is more interconnected than ever before, with global supply-chain links. When you take into account the knock-on effects of this type of shock, the impact to the global economy will be drastic. Trade credit insurance covers a supplier of goods and services against the risk of non-payment by its customers because of willful default or insolvency. Claims in trade credit insurance mirror the economy — higher claims point to a liquidity crunch in the economy.

Major sports events across the world have either been cancelled or postponed on account of the COVID 19 situation triggering the insurance covers.

In this workshop we will examine the impact on the insurance companies as the clients apply for compensation. How will the industry recover, and when it emerges from this crisis, how will it affect the insurance industry are some of the deliberations that will be taken up in the insightful two day interaction. COI has created '*Virtual Training (CVT) Rooms*' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

Who should attend? All executives interested in understanding these special policies working in Insurance/Film Industry/Banks/MSME/Sports Industry

Duration	Date	Time	Hours
