

College of Insurance
Insurance Institute of India, Mumbai
Basics of Reinsurance (CT-BR) – Program ID- CPG1
(From: 10th to 11th April, 2023)

Relevance of the Program:-

Reinsurance is one of the age old risk management practices used by the insurance industry across the globe. It primarily helps in building long-term sustainability for insurers against all kinds of uncertain events.

Considering that this risk transfer mechanism involves transfer of large amounts of money, designing the right type of the reinsurance arrangement becomes one of the crucial steps in the strategic planning of an insurance company. More of reinsurance can increase the cost for the insurance company, while less of reinsurance can be disastrous for an insurance company. Understanding reinsurance contracts helps insurers and intermediaries in deciding optimal contracts. This understanding helps reinsurers also, for providing better terms to the ceding companies and faster claims settlements in case of calamitous events.

Through this program, the College of Insurance aims to provide a stronger theoretical framework to insurers and others involved in designing reinsurance arrangements and implementing them.

Program Objectives:-

The program is designed to enable participants to:

- Revisit the fundamentals of reinsurance
- Understand various kinds of reinsurance arrangements
- Understand the terms and clauses of reinsurance contracts
- Appreciate the practices in the global market in the reinsurance space

Participant's Profile:-

The program is specially designed for insurance executives in insurance, reinsurance and broking companies, whose roles require knowledge and skills relating to reinsurance, including processes and critical issues in reinsurance management.
